Trenton, Mich., Church Amazing Vision Example

By Alan Bryan

DALLAS, Tex.—Recently I visited the congregation at Trenton, Michigan. Actually the congregation has been in existence only a few years, but it furnishes one of the most amazing examples of vision among God's people. The congregation consists of approximately 180 members. Yet they have built a building that can seat 1500 people. By doing much of the work themselves these people have had to go in debt by only \$160,000. Yet they started to make definite plans to build with only \$280 in a building fund.

Someone may think these people are wealthy. No, they are all moderate or less than average workers in factories and plants nearby. None have any wealth financially speaking. Yet they are very wealthy spiritually speaking. They are possessed with a measure of faith and vision hardly equaled in our time.

WHAT COULD THE congregation of which you are a member do if this same faith and vision were present there? Ask yourself the question "Will God be pleased with any less faith and vision here?"

Trenton will someday have a congregation of 1500 or 2000 members and I predict it won't be long getting there.
