Subject: RE: Methodology Help Please

I would think the 5 yr should reference the 96/97 yr.....and so on with the 10 yr
is that RA position closed yet?

Subject: Methodology Help Please

Morning Brian,

So how is life these days? Kicked back being able to observe rather than being observed?

I have a question for you. Now that I'm starting to notice the trees in this forest I now live in, I'm noticing some discrepancies. Probably coming from multiple hands in the pot. I have decided to take on the mission of making all the reports I'm involved in consist. This brings me to a point I need assistance since I can see it both ways. I'm comparing time frames for Official Enrollment Reports and Degree and Credit Hour Trends. When you compare five and ten years, is it inclusive or additional? The different files use it both ways.

In other words:

This year = 2001/2
1 year comparison = 2000/1 an additional yr no other option
5 year comparison = 1997-98 (inclusive) or 1996/97 (in an additional 5yrs)
same applies for 10 years.

What is the standard or is there a standard?

Help
Thanks,

Gail M. Foster

Degree Trends 00-01

Tab Name	Explanation of Sheet
Revision Notes	A listing of the changes made to the file.
Instructions	Directions for printing and saving the report are stored here. Any special notes to the user are also stored on this sheet.
Dialogue Box	This is where you enter the Program Code. Once this is entered the formulas are calculated.
Associates Warehouse	The data for the associates degrees is stored here. It is updated annually around October – November.
Certs Warehouse	The data for the certificates is stored here. It is updated annually around October – November.
Data Bivouac	This is where the data associated with the Program Code you entered is held for the report. Collegewide data is placed here as well.
CIP Codes	This table consists of Program Code, Credits Required, CIP Code, Program Name, Degree Level, and Status. It is used as a look-up table for the warehouses.
occ and non-trad codes	This table is similar to the CIP table but includes occupational and non-traditional codes. It is also used as a look-up table for the warehouses.
Top 5 SCH	Shows the top 5 Degree awarded.
Collegewide 3 yr moving mean	The moving mean, and high and low standard deviation is calculated and graphed for the 10 most recent years of total Degrees and Certificates awarded. This graph is included in the collegewide report.
Rate of Change	The rate of change in the number of degrees and certificates are calculated and graphed individually. These graphs are included in the collegewide report.
assoc change	Programs are ranked by the number of degrees awarded. The percent of change is calculated for 1, 5, and 10 year intervals. This sheet is included in the Collegewide report.
1 yr assoc	Programs are ranked by the 1 Year percent of change in the number of degrees awarded. The 5 and 10 year calculations are also shown. This sheet is included in the Collegewide report.
5 yr assoc	Programs are ranked by the 5 Year percent of change in the number of degrees awarded. The 1 and 10 year calculations are also shown. This sheet is included in the Collegewide report.
10 yr assoc	Programs are ranked by the 10 Year percent of change in the number of degrees awarded. The 1 and 5 year calculations are also shown. This sheet is included in the Collegewide report.
Ranked assoc	Degree awards are ranked by current year showing 1, 5, and 10-year positions. This sheet was combined with the certificate and SCH rankings and circulated as a stand-alone Adobe file.

cert change	Programs are ranked by the number of certificates awarded. The percent of change is calculated for 1, 5, and 10 year intervals. This sheet is included in the Collegewide report.
1 yr cert	Programs are ranked by the 1 Year percent of change in the number of certificates awarded. The 5 and 10 year calculations are also shown. This sheet is included in the Collegewide report.
5 yr cert	Programs are ranked by the 5 Year percent of change in the number of certificates awarded. The 1 and 10 year calculations are also shown. This sheet is included in the Collegewide report.
10 yr cert	Programs are ranked by the 10 Year percent of change in the number of certificates awarded. The 1 and 5 year calculations are also shown. This sheet is included in the Collegewide report.
Ranked cert	Programs are ranked by current year showing 1, 5, and 10-year positions. This sheet was combined with the associates and SCH rankings and circulated as a stand-alone Adobe file.
Cover Sheet	This is the cover sheet used in the report.
Sum	This is the summary sheet used in the report. It is customized for your Program Code.
Program 10 Yr Trends	The number of degrees and certificates from the most recent 10 years of are entered and graphed. This sheet is used in the report.
Program Rate of Change	The rate of change of degrees and certificates is calculated and graphed. The most recent 10 years is used. This graph is included in collegewide report.
Program 3yr mean	The moving mean, and high and low standard deviation is calculated and graphed for the 10 most recent years of awards. The change rate for both degrees and certificates are calculated and graphed. Only the graphs are included in the report.
Collegewide 10 Yr Trend	The number of degrees and certificates from the most recent 10 years of are entered and graphed. This sheet is used in the report.
