

June 14, 2002

Dear Health Agency Professional:

Several months ago your agency was invited to participate in a focus group designed to address additional services that DALNET (Detroit Area Library Network) could offer to various health-related agencies in southeastern Michigan. Your agency was unable to send a representative but did express interest. The most frequently suggested service generated by the focus group, was the development of a health-related agency calendar that would allow agencies to view at a glance non-conflicting dates as an aid to planning their activities.

We are pleased to announce that we addressed this concern and have developed a web-based calendar that allows your staff or customers to search for information using different criteria, allows your agency to instantly update their calendar, and can be linked to your existing web site. Of course there is no charge for this service.

Once your agency is registered, your staff can enter all appropriate event information. No special skills are required and your agency is responsible for keeping the information up to date. Events planned up to one year in advance may be entered at anytime.

Please take a moment to review the website : <http://www.healthcalendar.org>
For further membership information please contact us at (313) 577-9056 or your agency may register online.

We look forward to your participation.

Sincerely,

Duryea H. Callaway
Outreach Coordinator
DALNET

This is a pilot project that is currently funded through a grant received from the Ameritech Foundation through The Friends of the Detroit Public Library
