

MEMORANDUM

TO: Martin Orłowski
 FROM: Soon Merz
 SUBJECT: Fall 1992 High School Penetration Report
 DATE: January 28, 1993

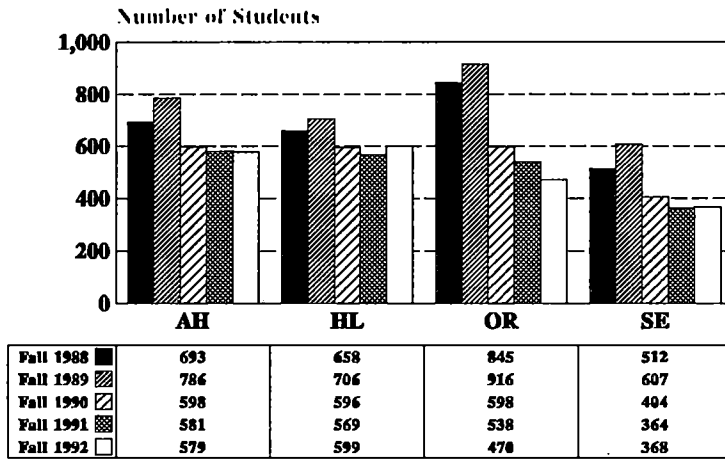

Please find attached the Fall 1992 High School Penetration Report detailing the number of students graduating from Oakland County high schools who entered OCC in Fall 1992.

One of the highlights of this report shows that the decline, in the past five years, in the number of high school graduates from Oakland County schools is stabilizing, with the Auburn Hills region showing a slight increase in 1992. In comparison, the decline in the number of students entering OCC from the Auburn Hills region is also stabilizing while the Highland Lakes and Southeast regions are showing a slight increase. The Orchard Ridge region, however, continues to experience a decline in the number of high school graduates from the region entering OCC. This trend is not consistent with the number of students graduating from the region's high schools. The following graphs display the five-year trend for the county's high school graduates and those that enter OCC.

Subject: 1992 Oakland Community College High School Penetration Report

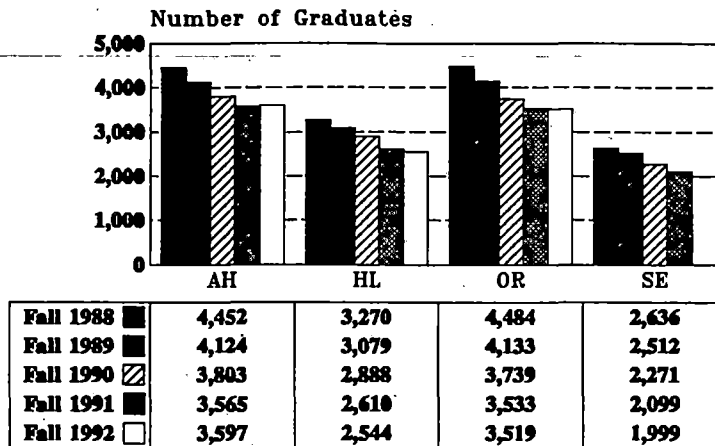

Date: February 5, 1993

Each year the Office of Institutional Planning & Analysis prepares the High School Penetration Report which depicts five year trends in high school graduation levels and the rate at which these graduates enroll at OCC. Students represented in this report include those who graduated from Oakland County high schools in either January or June and who subsequently enrolled at OCC the following September (Fall term). The attached report covers the period 1988 through 1992.

In order to provide an indication of OCC's recruiting efforts the report is divided into OCC campus recruiting regions. Each region is further divided into two sections, Public and Private high schools. Highlights from this years report include:

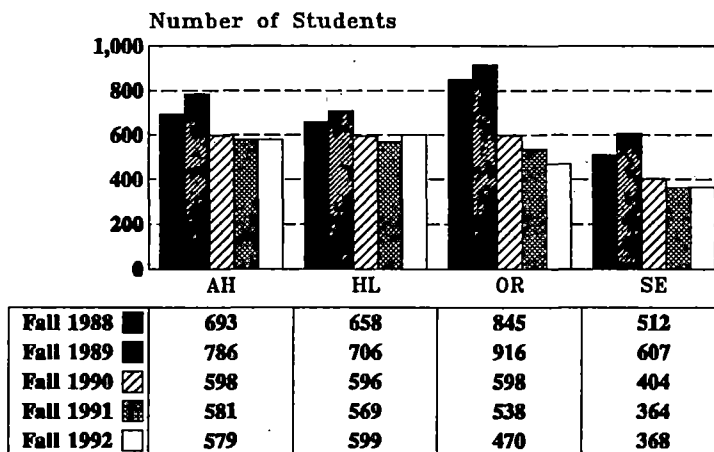

- As a whole, graduation levels from public high schools in Oakland County are showing signs of stabilizing. In recent years the number of high school graduates had been declining; in 1992 a slight increase (0.2%) occurred over 1991 levels.
- However, graduation levels from private high schools in Oakland County continue to decline, dropping 10.3% between 1991 and 1992.
- According to the OCC 1992-93 Environmental Scanning Report, "The pool of high school graduates will decrease through 1992-93, and begin to increase through 2004" (p. 27). The information depicted in the following graph adds support to this prediction.

OAKLAND COMMUNITY COLLEGE
Oakland County High School Graduates
By OCC Campus Recruitment Regions

- Nearly one quarter (23.5%) of all Highland Lakes region high school graduates enroll at OCC.
- However, the extent to which each OCC campus recruiting regions are attracting county high school graduates varies dramatically as evident in the following graph.

Subject: 1992 Oakland Community College High School Penetration Report

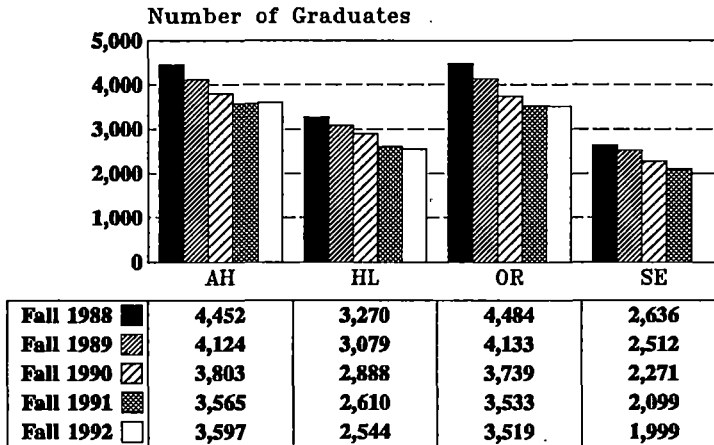

Date: February 5, 1993

Each year the Office of Institutional Planning & Analysis prepares the High School Penetration Report which depicts five year trends in high school graduation levels and the rate at which these graduates enroll at OCC. Students represented in this report include those who graduated from Oakland County high schools in either January or June and who subsequently enrolled at OCC the following September (Fall term). The attached report covers the period 1988 through 1992.

In order to provide an indication of OCC's recruiting efforts the report is divided into OCC campus recruiting regions. Each region is further divided into two sections, Public and Private high schools. Highlights from this years report include:

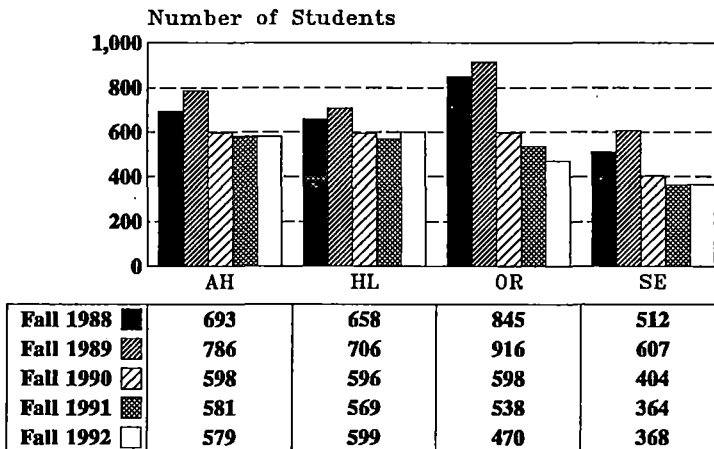

- As a whole, graduation levels from public high schools in Oakland County are showing signs of stabilizing. In recent years the number of high school graduates had been declining; in 1992 a slight increase (0.2%) occurred over 1991 levels.
- However, graduation levels from private high schools in Oakland County continue to decline, dropping 10.3% between 1991 and 1992.
- According to the OCC 1992-93 Environmental Scanning Report, "The pool of high school graduates will decrease through 1992-93, and begin to increase through 2004" (p. 27). The information depicted in the following graph adds support to this prediction.

OAKLAND COMMUNITY COLLEGE
Oakland County High School Graduates
By OCC Campus Recruitment Regions

- Nearly one quarter (23.5%) of all Highland Lakes region high school graduates enroll at OCC.
- However, the extent to which each OCC campus recruiting regions are attracting county high school graduates varies dramatically as evident in the following graph.

MEMORANDUM

To: Department Chairs

Enrollment Service Coordinators
Associate Deans
Registrar
Academic Deans

From: Martin A. Orlowski,  Director,
Office of Institutional Planning & Analysis

Subject: 1992 Oakland Community College High School Penetration Report

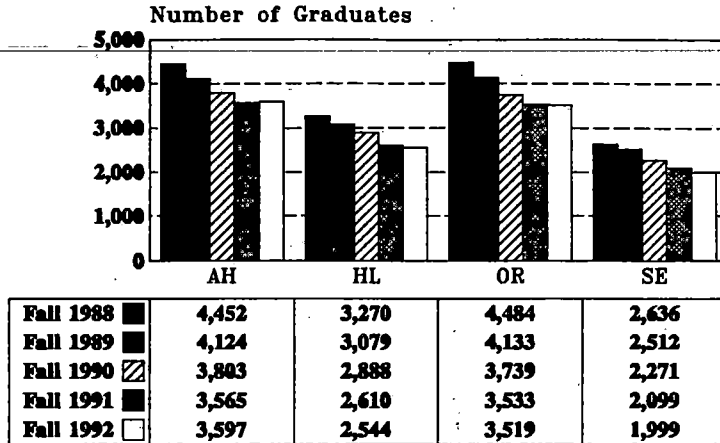

Date: February 5, 1993

Each year the Office of Institutional Planning & Analysis prepares the High School Penetration Report which depicts five year trends in high school graduation levels and the rate at which these graduates enroll at OCC. Students represented in this report include those who graduated from Oakland County high schools in either January or June and who subsequently enrolled at OCC the following September (Fall term). The attached report covers the period 1988 through 1992.

In order to provide an indication of OCC's recruiting efforts the report is divided into OCC campus recruiting regions. Each region is further divided into two sections, Public and Private high schools. Highlights from this years report include:

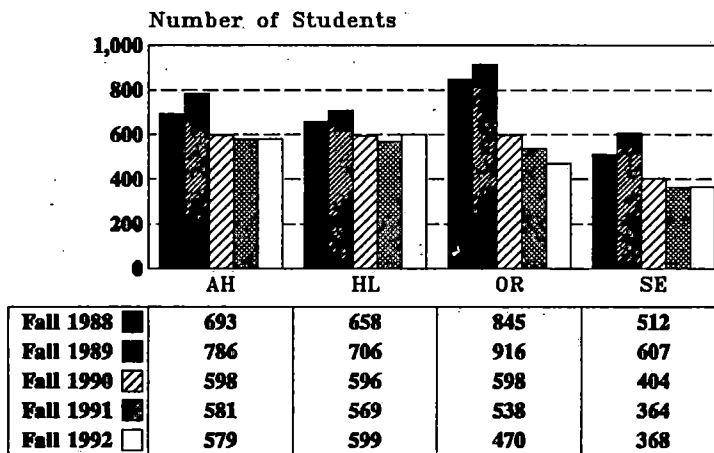

- As a whole, graduation levels from public high schools in Oakland County are showing signs of stabilizing. In recent years the number of high school graduates had been declining; in 1992 a slight increase (0.2%) occurred over 1991 levels.
- However, graduation levels from private high schools in Oakland County continue to decline, dropping 10.3% between 1991 and 1992.
- According to the OCC 1992-93 Environmental Scanning Report, "The pool of high school graduates will decrease through 1992-93, and begin to increase through 2004" (p. 27). The information depicted in the following graph adds support to this prediction.

Oakland County High School Graduates
By OCC Campus Recruitment Regions

- Nearly one quarter (23.5%) of all Highland Lakes region high school graduates enroll at OCC.
- However, the extent to which each OCC campus recruiting regions are attracting county high school graduates varies dramatically as evident in the following graph.

Subject: High School Penetration Report

Date: February 12, 1992

The Office of Institutional Planning & Analysis has recently completed the attached report depicting trends in High School graduations and the rate at which OCC "captures" those graduates. This report includes all Oakland county High Schools and covers the period 1987 through 1991.

Rates are based upon the total number of High School graduates within a calendar year (typically January and June graduates) and the number of first time OCC students (Fall) who graduated from an Oakland county High School. Both public and private schools are included in the report.

If you should have any questions with regard to this report, please feel free to contact the Office of Institutional Planning & Analysis at 7746.
