One committee will be charged with organizing groups to help define the future system needs of the various areas to be supported by the new system. Another group will be examining current expenditures and aligning them with anticipated plans for future spending. Both committees will have access to information recently gathered from members via an online survey about current member investments. Please consider if you may be interested in serving on one of these groups or on a sub-committee. We are hoping that all the various sizes and types of DALNET libraries will be well represented. More information and formal charges coming this fall.</p> <h3>New Member Website Access</h3> <p>The DALNET member website logins and passwords will be changing this month.
