

DALNET Staff Recruitment Status Report

**Submitted by Michael Piper
14 June 2001**

Position	Status
-----------------	---------------

<i>Assistant Director</i>	Dr. Yee has authorized me to convene a search committee for this post. Next I need to compile a list of essential functions and qualifications, then ask Human Resources to post the position. I expect to complete this next week.
<i>Secretary</i>	We have four applicants, including one internal candidate. I expect to review these and begin scheduling interviews next week.
<i>Sybase Administrator</i>	We interviewed an impressive candidate last Friday. After checking references, I asked HR to offer the position Tuesday, and our candidate accepted today, with a 9 July start date. I'm looking forward to introducing you to Negib Sherif, our new Sybase Administrator (aka Lead Systems Integrator).
<i>Systems Librarian</i>	I will prepare a draft listing of essential functions and qualifications for review by DALNET staff. Once we reach agreement on that, I'll ask HR to post this position. We'll also advertise this job in the library literature and discussion lists.
<i>Web Applications Developer</i>	WSU's Classification and Compensation Department has completed its review, and I've asked HR to post this position. We also plan to advertise this position in the library literature and on discussion lists.
