November 2000**

**Oakland Community College  
Credit Hour Trends Report  
1990-91 through 1999-00  
Major Findings**

Each year the Office of Institutional Research prepares the Credit Hour Trends Report, based on data generated by the ACS-6 report (Activities Classification Structure), which examines enrollment trends of OCC disciplines. Annual totals for Student Credit Hours (SCH) are examined over a five and ten year period depicting trends in the changing rate of enrollment college-wide.

Highlights from the attached report include:

- The total number of student credit hours for 1999-00 of 438,997 shows a slight decline of only 0.3% from the 1998-99 total of 440,448. These totals reflect a continuation of the upswing from the lowest point during the 10-year period when total SCH dropped to a low of 431,521 in 1997-98.
- The peak high in SCH occurred in 1991-92 with a total of 531,100 with only a 0.6% decline the following year with a total of 528,686 in 1992-93. The major decline began in 1993-94 and continued until the lowest point in 1997-98 bottoming out at 431,521. Although the totals have increased to the latest total of 438,997, this is still a 17% decrease from the peak, which occurred in 1991-92.

The rate of decline from 1992-93 to 1997-98 was as follows:

5.1% from 1992-93 to 1993-94; 5.9% from 1993-94 to 1994-95; 4.3% from 1994-95 to 1995-96; 1.7% from 1995-96 to 1996-97 and a 2.6% decline from 1996-97 to the lowest point of 1997-98.

- In 1999-00, twelve disciplines out of 111 generated more than 10,000 student credit hours. The "Top Five" SCH-generated disciplines were:

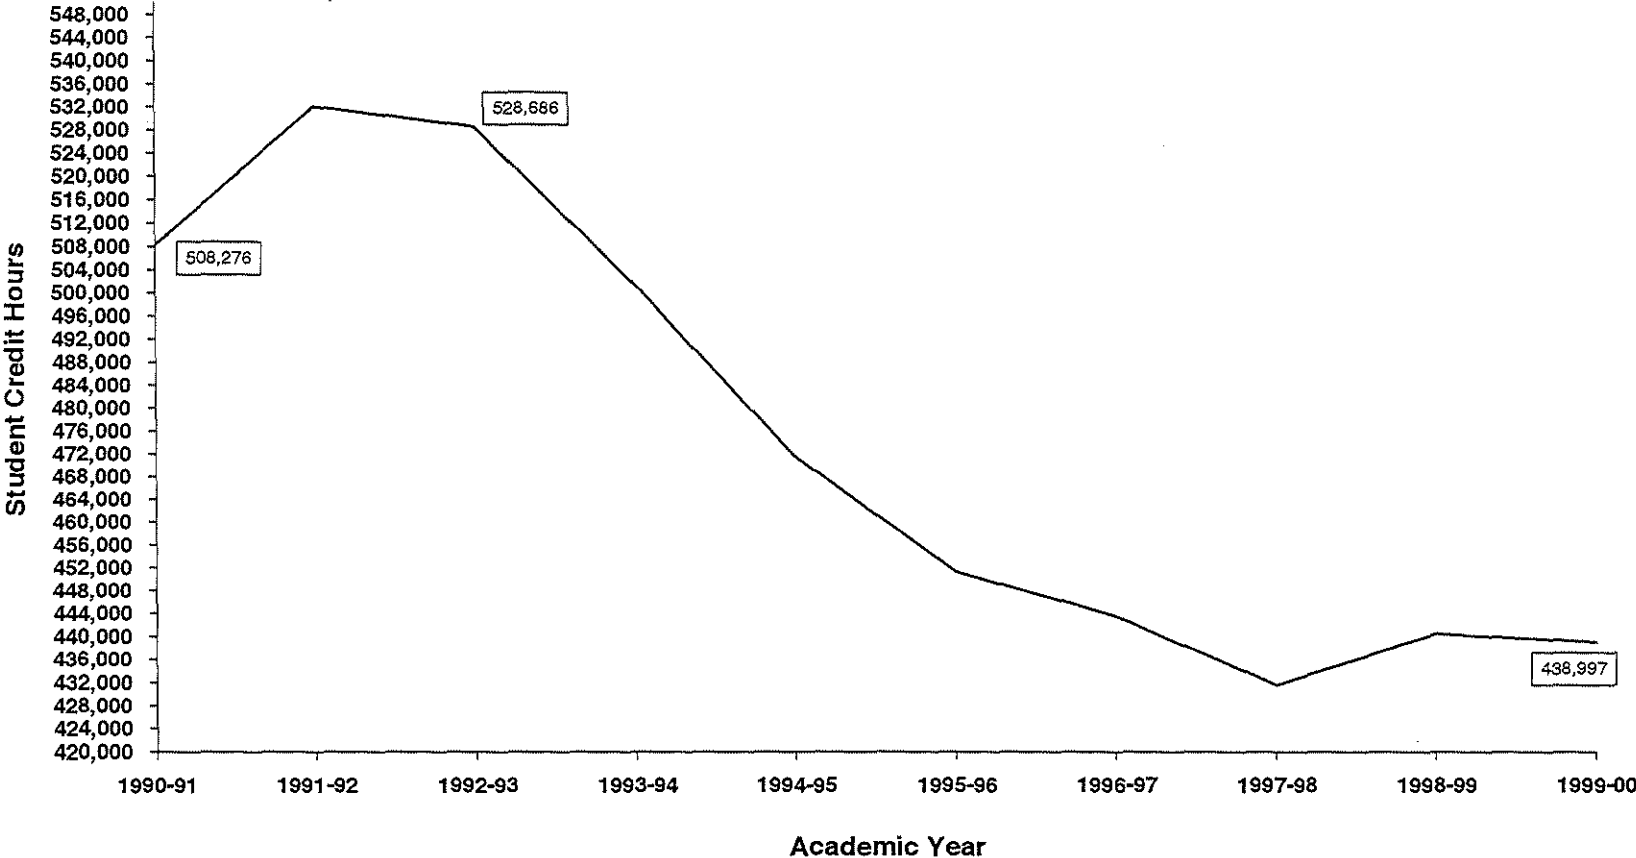

Mathematics (MAT)	63,061 SCH
English (ENG)	43,765
Computer Info Systems (CIS)	35,254
Psychology (PSY)	20,467
Biology (BIO)	16,459

Humanities (HUM) and Business Professional Inst. (BPI) came very close to the 10,000 SCH total at 9,022 and 8,956 respectively.

Sixty-one disciplines generated less than 1,000 SCH in 1999-00.

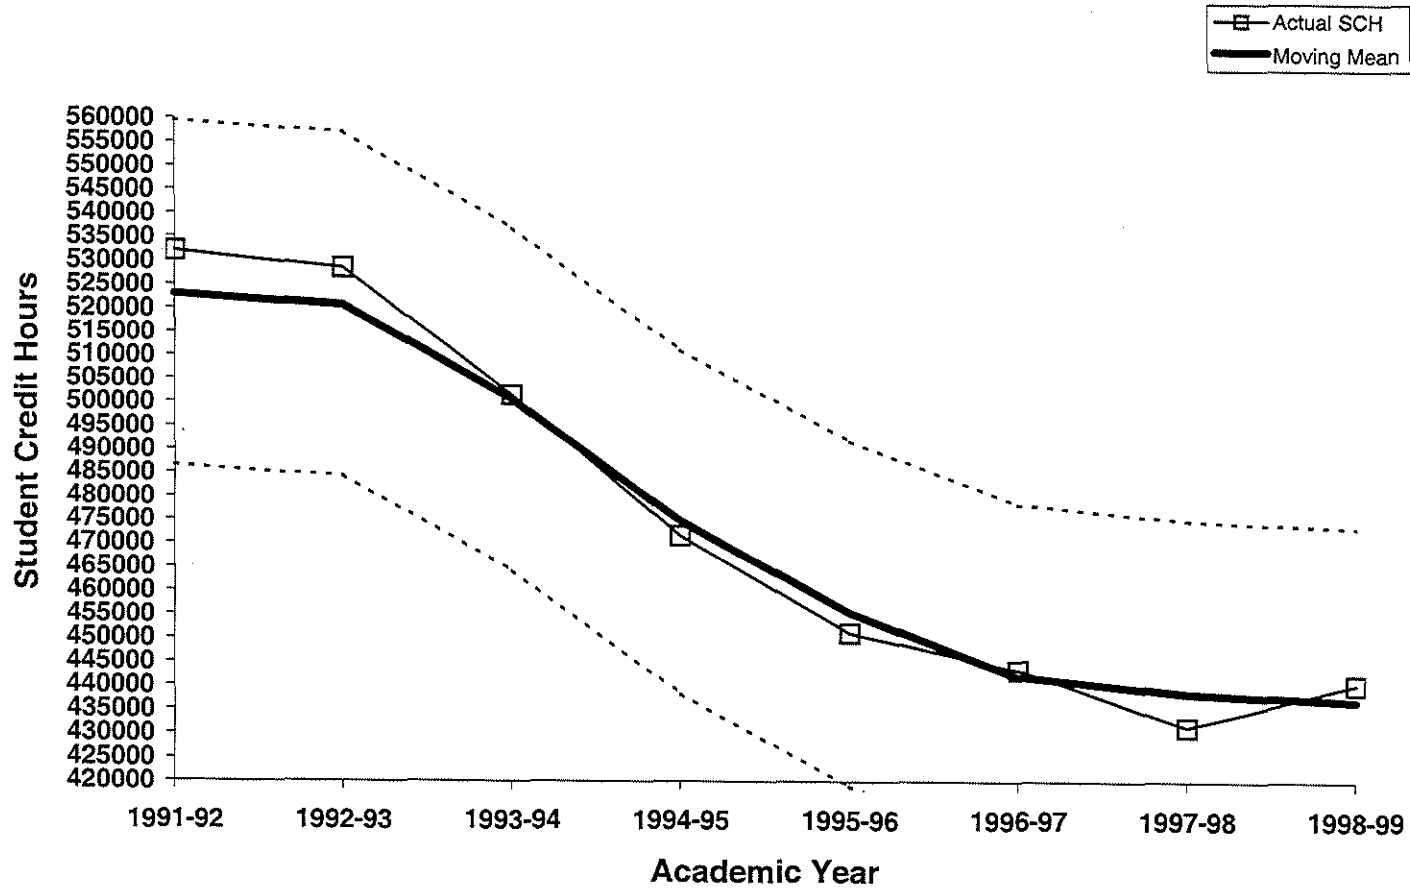

In the past five years, SCH for 48 disciplines increased and 66 disciplines declined, whereas over the ten-year period, 47 increased and 67 declined.
