Memo

To: Patsy J. Calkins,
Chancellor

From: Martin A. Orlowski, Director,
Institutional Planning & Analysis

Subject: Historic Enrollment Trends by Oakland County School District

Date: January 9, 1995

In response to your request, the Office of Institutional Planning & Analysis has prepared the attached report which depicts thirty year enrollment trends among students who attended Oakland County high schools. Data reflects the year in which a student first enrolled at OCC and does not necessarily indicate the year in which they graduated from high school. The report presents enrollment within academic years (July 1 - June 30) by school district. All data are graphically illustrated in order to highlight long term changes.

It is interesting to see the great influx of migration into the county during the 1970's and 1980's, as well as the maturing of the baby-boom population.

If you have any questions with regard to this report, please do not hesitate to call me at 7746.

pc: D. Jaksen

** Before an unduplicated student count can be calculated the Non-Traditional file
** must be merged with the 'Credit' file to weed out duplicates. Merge by adding
** variables with the External Data as keyed file. The only variable needed is something
** in the Credit file that all will have. Then, select cases if the added variable is blank.
** Then, run the frequencies to add in the headcount.
